

FMP Publication & Dissemination Strategy

Strategic Objectives

1. **Establish legitimacy** of Fractal Metascience as new paradigm
2. **Build academic community** around FMP principles
3. **Generate practical applications** across multiple domains
4. **Create institutional support** for transdisciplinary research

Multi-Platform Publication Matrix

Phase 1: Preprint & Open Access (0-3 months)

Platform	Submission Format	Target Audience	Strategic Value
arXiv	PDF + LaTeX source	International researchers	Global visibility, rapid dissemination
ResearchGate	PDF + supplementary materials	Academic network	Community building, metrics tracking
Academia.edu	Formatted chapters	Broader academic audience	Accessibility, social media integration
SSRN	Social science focus version	Policy researchers	Interdisciplinary reach

arXiv Submission Categories:

- Primary: cs.AI (Artificial Intelligence)
- Secondary: physics.soc-ph (Physics and Society)
- Cross-list: q-bio.NC (Neurons and Cognition)

Phase 2: Peer-Reviewed Journals (3-18 months)

High-Impact International Venues

Journal	Impact Factor	Focus Area	Submission Strategy
Complexity	2.3	Complex systems	Full monograph or condensed version
Systems Research and Behavioral Science	1.8	Systems thinking	Methodological focus
Futures	3.0	Future studies	Paradigm implications
AI & Society	3.5	AI ethics/philosophy	Ethical AI chapter
Educational Technology Research	4.2	Educational innovation	Fractal pedagogy chapter

Specialized Venues

Journal	Focus	Strategic Value
Journal of Transdisciplinary Studies	Transdisciplinarity	Core audience alignment
Constructivist Foundations	Constructivism/cybernetics	Epistemological grounding
Ecological Economics	Sustainability	Ecosystem design applications
Artificial Intelligence Review	AI theory	Technical AI audience

--

Phase 3: Russian Academic Integration (6-12 months)

RINC-Indexed Journals

Journal	Russian Title	Scope	Strategy
Вопросы философии	Philosophy Questions	Philosophical foundations	Epistemological focus
Образование и наука	Education and Science	Educational applications	Fractal pedagogy
Искусственный интеллект	Artificial Intelligence	AI applications	Technical implementation
Системный анализ	Systems Analysis	Systems thinking	Methodological framework

Adaptation Requirements:

- Translation to Russian
- Integration of Russian/Soviet cybernetics tradition

- Citations of prominent Russian systems theorists
- Alignment with Russian academic formatting standards

Phase 4: Central Asian Integration (12+ months)

Uzbek Academic Venues

Institution/Journal	Focus	Local Relevance
НУУз им. Мирзо Улугбека	National University	Institutional recognition
Ташкентский университет информационных технологий	IT University	Technical applications
Узбекский журнал образовательных технологий	Educational Technology	Pedagogical applications

Cultural Adaptation:

- Integration with Islamic scholarly traditions
- Connection to Central Asian educational contexts
- Uzbek language translation considerations
- Regional case studies and examples

Publication Timeline & Milestones

Month 1-2: Immediate Actions

- ☐ arXiv submission (complete monograph)
- ☐ ResearchGate profile optimization
- ☐ Conference abstract submissions
- ☐ Initial peer network outreach

Month 3-6: Journal Submissions

- ☐ Target 3 high-impact journals
- ☐ Develop specialized article versions
- ☐ Build reviewer/editor relationships
- ☐ Conference presentations

Month 6-12: Community Building

- ☐ Workshop organization
- ☐ Special issue proposals
- ☐ Collaborative research initiation

☐ Graduate student recruitment

Month 12-18: Institutionalization

- ☐ Course development
- ☐ Funding applications
- ☐ Research center proposals
- ☐ International partnerships

Target Conference Strategy

Primary Conferences (2024-2025)

Conference	Date	Location	Relevance	Abstract Deadline
NetSci	May 2025	Vienna	Network science applications	January 2025
ICCS	June 2025	Barcelona	Complex systems	February 2025
AERA	April 2025	Chicago	Educational applications	October 2024
AIES	August 2025	Berkeley	AI ethics	March 2025

Regional Conferences

- Russian:** Конференция по искусственному интеллекту
- Central Asian:** Digital Transformation Summit (Tashkent)
- European:** European Conference on Complex Systems

Success Metrics & KPIs

Quantitative Metrics

- Citation count across all platforms
- Download/view statistics
- H-index contribution
- Media mentions and policy citations

Qualitative Indicators

- Invitation to keynote speeches
- Editorial board appointments
- Collaboration requests
- Student/researcher interest

Impact Assessment

- Course adoptions of FMP principles
 - Policy document references
 - Technology implementations
 - Institutional changes
-

Immediate Next Steps

This Week:

1. **arXiv submission preparation**
 - PDF optimization
 - LaTeX source preparation
 - Abstract refinement
 - Category selection
2. **Journal target list refinement**
 - Editor research
 - Recent publication analysis
 - Submission guideline review
3. **Network activation**
 - Contact key researchers in target areas
 - Social media strategy launch
 - Academic profile updates

This Month:

1. **Conference submissions**
 2. **Peer review volunteer registration**
 3. **Collaboration outreach**
 4. **Supplementary material development**
-

Innovation: "Living Document" Strategy

Following FMP principles, treat the monograph as a **living, evolving document**:

- **Version control** with regular updates
- **Community contribution** mechanisms
- **Recursive refinement** based on feedback
- **Multi-format adaptations** for different audiences

This approach embodies the fractal, recursive nature of the paradigm itself.
